

# Stewardship Report

## LETTER FROM THE PRINCIPAL

Dear VCA Community,

It is an incredible thing to look back on another year of God's faithfulness here at VCA. After navigating many unusual circumstances our first few years, we were able to finish a school year with another high school graduation and promote our K, 6th and 8th graders with much fanfare and group celebration! We have been able to gather our school community for athletic events, concerts, fundraisers, field trips and much more. We've heard from our first year of alumni who have completed their first year of college and vocations and are already making a positive mark in the new communities where God has placed them.

Heading into our 2022-23 school year we have continued to see the fruits of God's generosity towards us. We were able to offer some benefits to our staff for the first time for their faithful service, hire on a new elementary music teacher, update elements of campus safety and roll out a new Chromebook program for our secondary students. Our finances have been strong going into the 2022-23 school year, with revenue from 2021-22 exceeding our costs and charitable giving strengthening our position further. This will allow us to wisely step into the process of splitting our larger classes in the coming school year, which is an exciting goal to grow closer to!

As we approach the New Year, we want to thank you all for your continued prayers, helping hands and financial support. Your involvement in these pieces is crucial as we grow from a new school into an established, fruitful, dynamic educational institution with the foundational goal of equipping students to know Christ and walk out their faith powerfully in this world. Thank you so much for partnering with us in the mission of helping students to be Grounded In Christ and Ready for the World!

In Christ, your VCA Principal, Wendy Cunningham
